PROFILE SUMMARY

Innovative **Full-Stack Software Engineer** with a Bachelor's in **Software Engineering** and specialized expertise in **ASP.NET Core (6/8)**, **C#**, and **React.js**. Proven track record of architecting scalable web solutions and high-performance **RESTful APIs**. Demonstrated success in optimizing **SQL** database queries and reducing data retrieval latency by **40%** in professional environments. Adept at collaborating within **Agile** cross-functional teams to deliver secure, responsive **Single Page Applications (SPAs)** using **Tailwind CSS** and **Modern SDLC** best practices.

PROFESSIONAL SKILLS

- ASP.NET Core 6 and 8
- HTML, CSS and JavaScript
- MySQL
- WordPress Elementor
- ASP.NET Core MVC
- React.js
- Python
- Git Version Control
- RESTful APIs
- CSS framework - Bootstrap, Tailwind
- C#
- Cursor, Claude Code

EDUCATION

- UBIT, DCS - University of Karachi** 2022 - 2026
- Bachelor of Software Engineering
- Jinnah Govt. College** 2019 - 2021
- Intermediate - Pre-Engineering

WORK EXPERIENCE

Frontend Web Developer | Sprint Digital NOVEMBER 2025 – PRESENT

- Engineer dynamic, highly interactive single-page applications using **React.js**, building out a scalable library of **30+ reusable UI components** that accelerated our development cycles by 25%.
- Build and deploy **5+** custom, fully responsive websites utilizing **WordPress** and **Elementor Pro**, implementing technical optimizations that improved average client **page-load speeds** by **40%**.
- Bridge the gap between **UI/UX** and engineering by flawlessly translating **Figma prototypes** into high-performing frontend code, consistently achieving **100%** cross-browser compatibility across all devices.

WordPress Developer | Digiflav LLC AUGUST 2025 – OCTOBER 2025

- Spearheaded the deployment of **5+ high-performance** client websites using **Elementor Pro**, executing advanced optimization strategies to slash page **load latency by 35%**, elevate Core Web Vitals, and secure a **95% client satisfaction** score.
- Developed **custom plugin integrations** to automate critical data workflows, eliminating **10+ hours** of manual entry weekly while ensuring flawless cross-device responsiveness and visual excellence.

Full Stack Developer | Bit Forge Lab MARCH 2025 – JULY 2025

- Architected scalable backend solutions for **3 high-traffic web applications** using **ASP.NET Core**, supporting over **1,000+ daily active users** with 99.9% uptime.
- Designed and implemented robust **RESTful APIs**, reducing API response time by **25%** through efficient SQL query indexing and caching strategies.
- Refactored legacy **React.js** components to implement lazy loading, decreasing initial bundle size by **40%** and accelerating rendering speed across devices.

Web Developer Intern | Realistik Solutions APRIL 2024 – JUNE 2024

- Constructed **6+ responsive frontend** architectures in cross-functional collaboration, implementing asset optimization and accessibility enhancements to drive a **30%** reduction in **page load times** and boost **user engagement** by **20%**.

CERTIFICATES

- **Backend Development using ASP.NET MVC** - Board Infinity (Coursera)
- Certification in **HTML, CSS and JavaScript for Web Development** - Johns Hopkins University (Coursera)
- **Database Structures and Management with MySQL** - Meta (Coursera)
- **Programming with JavaScript** - Meta (Coursera)
- **React.js & Frontend Development** - Meta (Coursera)

PERSONAL PROJECTS

E-Commerce Admin Dashboard | ASP.NET Core 8 MVC, SQL Server

- Developed a comprehensive **Back-Office Admin Panel** to manage product listings, track sales records, and monitor order lifecycles.
- Implemented complex business logic for inventory control and sales reporting using **C#** and structured **SQL** queries.

Library Management System | ASP.NET Core 8 MVC, Entity Framework

- Built a robust **MVC application** for managing book inventories and tracking student issuance deadlines.
- Designed specific user flows for administrators to issue books and for students to view borrowing history and return dates.

Secure Personal Blog Platform | ASP.NET Core 8 MVC, Identity Framework

- Programmed a secure blogging engine featuring full **CRUD operations** (Create, Read, Update, Delete) for content management.
- Integrated **Authentication & Authorization** protocols to ensure only verified users can access administrative features.

Mariani Metals Website | React.js, Next.js, Tailwind CSS

- Link: mariani-six.vercel.app
- Designed and deployed the dynamic frontend interface for **Mariani Metals** utilizing modern JavaScript frameworks (**React.js/Next.js**), delivering a **high-performance, fully responsive** platform hosted on Vercel.
- Created a dynamic Website allowing users to browse **portfolios** and the **projects** built by **Mariani Metals** and also showcasing their **Services**. Users can also view their **policies** and **terms and conditions**.

IT Services Portal (Altitude Quant Innovations) | React.js, Bootstrap

- **Link:** altitudoguantinnovations.netlify.app
- Developed a corporate service portal showcasing software solutions, enabling B2B clients to view service packages and initiate purchases.
- Utilized **React** Components and **Bootstrap** grid systems to ensure a professional, mobile-responsive user interface.

Artist Portfolio & Store (The Jacka) | WordPress, WooCommerce

- **Link:** thejacka.com
- Built a multimedia website featuring user registration, music streaming capabilities, and a custom apparel store.
- Customized **Elementor** layouts to support high-traffic media consumption and secure checkout processes for merchandise.

Gibson Supplies Website | WordPress Elementor Pro

- **Link:** gibsonsupplies.com
- Developed a responsive frontend interface for a building supplies company utilizing **WordPress** and **Elementor Pro**, ensuring seamless performance on both desktop and mobile.
- Architected a streamlined user journey tailored for contractors, simplifying digital navigation for extensive product catalogs, custom delivery options, and bulk quote requests.
